

KEMESS UNDERGROUND PROJECT

Application for an Environmental Assessment Certificate

TABLE OF CONTENTS

Document Map and List of Appendices

Table of Concordance

Preface to the Application

Executive Summary

Table of Contents	ToC 1
List of Figures	ToC 56
List of Tables	ToC 72
List of Plates	ToC 95
List of Appendices.....	ToC 96

Acronyms and Abbreviations

Glossary

Part A. Introduction and Background

1.	Project Overview	1-1
1.1	Introduction.....	1-1
1.2	Proponent Description.....	1-1
1.2.1	Proponent	1-1
1.2.2	Corporate Governance.....	1-1
1.2.3	Corporate Social Responsibility and Environmental Policies.....	1-2
1.2.4	Consultants	1-3
1.3	Purpose of the Project	1-3
1.4	Project Location and Access.....	1-4
1.5	Project History.....	1-4
1.5.1	Kemess South Mine Project.....	1-4
1.5.2	Kemess North Project	1-7
1.5.3	Kemess Acquisition.....	1-8
1.6	Federal Lands, Funding and Transboundary Effects	1-8

1.7	Mineral Reserves and Resources	1-10
1.7.1	Regional and Project Geology and Mineralization.....	1-11
1.8	Project Components and Infrastructure	1-12
1.9	Land Use	1-12
1.9.1	Private and Fee Simple Land	1-12
1.9.2	Aboriginal Treaty Boundaries and Traditional Territories	1-12
1.9.3	Provincial Land and Resource Management Plans	1-13
1.9.4	Provincial Parks and Protected Areas	1-17
1.9.5	Guide Outfitting	1-17
1.9.6	Trapping	1-17
1.9.7	Grazing	1-21
1.9.8	Water Use	1-21
1.9.9	Forestry	1-21
1.9.10	Mineral Exploration.....	1-21
1.9.11	Oil and Gas.....	1-21
1.9.12	Energy.....	1-21
1.9.13	Aboriginal Fisheries.....	1-21
1.9.14	<i>Land Act</i> Tenures	1-21
1.9.15	Other Resource Developments and Potentially Foreseeable Future Developments	1-25
1.10	Project Schedule and Activities	1-25
1.10.1	Construction Phase	1-25
1.10.2	Operations Phase.....	1-25
1.10.3	Closure Phase.....	1-26
1.10.4	Post-Closure Phase.....	1-26
1.11	Project Benefits	1-26
1.11.1	Project Economics.....	1-26
1.11.1.1	Capital Construction Costs	1-26
1.11.1.2	Operating Costs	1-29
1.11.1.3	Closure and Post-Closure Costs	1-29
1.11.2	Project Workforce.....	1-29
1.11.2.1	Direct Employment Opportunities	1-29
1.11.2.2	Indirect Employment Opportunities	1-37
1.11.2.3	Local Employment Trends	1-38
1.11.2.4	Employment Policies.....	1-39
1.11.2.5	Training.....	1-40

1.11.3	Other Project Impacts	1-41
1.11.3.1	Government Revenues.....	1-41
1.11.3.2	Contractor Supply Strategy	1-42
1.11.3.3	Project Contribution to Community Development	1-49
1.11.4	Local Facilities.....	1-50
	References.....	1-51
2.	Assessment Process.....	2-1
2.1	British Columbia <i>Environmental Assessment Act</i> Requirements.....	2-1
2.1.1	Reviewable Projects Regulation (BC Reg. 370/2002)	2-2
2.1.2	Prescribed Time Limits Regulation (BC Reg. 372/2002).....	2-2
2.1.3	Public Consultation Policy Regulation (BC Reg. 373/2002).....	2-2
2.1.4	Concurrent Approval Regulation (BC Reg. 371/2002)	2-2
2.1.5	Environmental Assessment Fee Regulation (BC Reg. 50/2014)	2-3
2.1.6	Guidance Documents	2-3
2.2	<i>Canadian Environmental Assessment Act</i> , 2012 Requirements	2-3
2.2.1	Regulations Designating Physical Activities (SOR/2012-147).....	2-4
2.2.2	Prescribed Information for the Description of a Designated Project Regulations (SOR/2012-148)	2-5
2.2.3	Guidance Documents	2-5
2.3	Substituted Assessment Process for the Designated Project	2-5
2.3.1	Substitution Conditions.....	2-5
2.3.2	Phase 1: Substitution Decision.....	2-6
2.3.2.1	Scope of the Proposed Project.....	2-8
2.3.2.2	Scope of the Assessment.....	2-10
2.3.2.3	Environmental Assessment Working Group.....	2-10
2.3.3	Pre-Application and Application Review	2-11
2.3.3.1	Valued Components Scoping Summary	2-12
2.3.3.2	Application Information Requirements	2-12
2.3.3.3	Application for an Environmental Assessment Certificate	2-12
2.3.3.4	Application Screening.....	2-12
2.3.3.5	180-Day Application Review	2-13
2.3.3.6	Assessment Report	2-13
2.3.4	Phase 3: Decision Process.....	2-13
2.3.5	Assessment Process Milestones and Timeline	2-14
2.4	Permitting	2-15
	References.....	2-19

3.	Information Distribution and Consultation	3-1
3.1	Introduction.....	3-1
3.1.1	Information Distribution and Consultation Objectives	3-2
3.2	Consultation Requirements.....	3-3
3.2.1	British Columbia Environmental Assessment Process	3-3
3.2.2	Canadian Environmental Assessment Process	3-5
3.2.2.1	Substitution of Environmental Assessment.....	3-5
3.2.2.2	Section 5(1)(c) of CEAA 2012	3-6
3.3	Environmental Assessment Working Group.....	3-7
3.3.1	Assessment of Water Discharge Alternatives	3-10
3.4	Consultation on the Content of the Application.....	3-11
3.4.1	Valued Components Scoping Document.....	3-12
3.4.2	Application Information Requirements	3-12
3.5	Public Outreach Materials	3-13
3.6	Aboriginal Information Distribution and Consultation.....	3-14
3.6.1	Aboriginal Capacity Funding.....	3-21
3.6.2	Aboriginal Consultation Plan.....	3-21
3.6.3	Aboriginal Consultation Reports	3-21
3.6.4	Pre-Application Consultation with Tse Keh Nay	3-22
3.6.4.1	Notification of the Kemess Underground Project.....	3-22
3.6.4.2	Joint Committees (SIC and EMC).....	3-22
3.6.4.3	Environmental Assessment Working Group.....	3-23
3.6.4.4	Review of VC Scoping Summary and AIR	3-23
3.6.4.5	Review of Baseline Study Reports.....	3-25
3.6.4.6	Agreements with the Tse Keh Nay	3-26
3.6.4.7	AuRico Funded Studies/Programs	3-28
3.6.4.8	Employment and Training	3-30
3.6.4.9	Site Visits.....	3-32
3.6.4.10	Community Meetings	3-32
3.6.4.11	Tse Keh Nay Review of the Application	3-33
3.6.5	Pre-Application Consultation with Schedule C Aboriginal Groups.....	3-33
3.6.5.1	Wulp Nii Kyap of the Gitksan Nation	3-34
3.6.5.2	Treaty 8 First Nations.....	3-35
3.6.5.3	Métis Nation of British Columbia	3-36
3.6.6	Comments and Issues Raised by Aboriginal Groups and Responses	3-36
3.6.7	Proposed Plan for Information Distribution and Consultation with Aboriginal Groups during the Application Review.....	3-38

3.7	Government Agency Information Distribution and Consultation	3-39
3.7.1	Pre-Application Consultation with Government Agencies	3-39
3.7.1.1	Environmental Assessment Working Group.....	3-39
3.7.1.2	Review of VC Scoping Summary and AIR Documents	3-39
3.7.1.3	Project Updates	3-40
3.7.2	Comments and Issues Raised by Government Agencies and Responses	3-40
3.7.3	Proposed Plan for Information Distribution and Consultation with Government Agencies during the Application Review.....	3-41
3.8	Public Information Distribution and Consultation.....	3-41
3.8.1	Pre-Application Consultation with the Public	3-41
3.8.1.1	Public Consultation Plan	3-43
3.8.1.2	Valued Component Scoping Summary	3-43
3.8.1.3	Consultation with Local Governments.....	3-44
3.8.1.4	Consultation with Tenure and Licence Holders	3-44
3.8.1.5	Open Houses	3-45
3.8.1.6	Conferences, Presentations and Panels	3-45
3.8.1.7	Public Consultation Reports	3-46
3.8.2	Comments and Issues Raised by the Public and Responses	3-46
3.8.3	Proposed Plan for Information Distribution and Consultation with the Public during the Application Review	3-47
	References.....	3-49
4.	Alternative Means of Undertaking The Project	4-1
4.1	Introduction.....	4-1
4.1.1	Consultation and Engagement	4-1
4.2	Approach to Alternatives Assessment	4-3
4.3	Alternative Means Assessment.....	4-6
4.3.1	Mining Method.....	4-6
4.3.1.1	Introduction.....	4-6
4.3.1.2	Technical and Economic Assessment	4-6
4.3.1.3	Conclusion	4-7
4.3.2	Electrical Power Source	4-8
4.3.3	Rock Haulage.....	4-8
4.3.3.1	Introduction.....	4-8
4.3.3.2	Assessment	4-8
4.3.3.3	Conclusion	4-9
4.3.4	Portal Location.....	4-9
4.3.4.1	Introduction.....	4-9

	4.3.4.2	Technical and Economic Assessment	4-11
	4.3.4.3	Natural Environment and Human Environment Assessment	4-11
	4.3.4.4	Conclusion	4-12
4.3.5		Access Corridor	4-12
	4.3.5.1	Introduction.....	4-12
	4.3.5.2	Technical and Economic Assessment	4-15
	4.3.5.3	Natural Environment and Human Environment	4-15
	4.3.5.4	Conclusion	4-15
4.3.6		Tailings and Waste Rock Disposal.....	4-16
	4.3.6.1	Introduction.....	4-16
	4.3.6.2	Assessment	4-16
	4.3.6.3	Conclusion	4-19
4.3.7		Water Management.....	4-19
	4.3.7.1	Introduction.....	4-19
	4.3.7.2	Assessment	4-20
	4.3.7.3	Conclusion	4-25
4.4		Conclusion	4-25
		References.....	4-27
5.		Project Description.....	5-1
	5.1	Introduction.....	5-1
	5.1.1	Overview	5-1
	5.1.2	Project Schedule.....	5-5
	5.1.2.1	Construction	5-5
	5.1.2.2	Operations	5-6
	5.1.2.3	Closure	5-7
	5.1.2.4	Post-Closure	5-7
	5.1.3	Project Components and Activities	5-7
5.2		Project Location and Access	5-9
	5.2.1	Project Location	5-9
	5.2.2	Project Access.....	5-11
5.3		Mineral Tenures	5-11
5.4		Geology and Mineralization	5-13
	5.4.1	Mineralogy	5-19
	5.4.1.1	Gossan Zone	5-20
	5.4.1.2	Takla Group.....	5-20
	5.4.1.3	Toodoggone Formation	5-21

	5.4.1.4	Hypogene Unit.....	5-21
	5.4.2	Deposit Type.....	5-21
5.5		Mineral Resources	5-22
	5.5.1	Kemess Underground Mineral Reserve Estimate.....	5-22
	5.5.2	Kemess Underground Mineral Resource Estimate	5-22
5.6		Underground Mine Design	5-23
	5.6.1	Summary	5-23
	5.6.2	Geotechnical Assessment	5-24
	5.6.3	Cavability, Fragmentation, and Subsidence	5-24
	5.6.4	Ground Support	5-26
	5.6.5	Geotechnical Monitoring.....	5-27
	5.6.6	Cave Design	5-28
	5.6.7	Access Decline	5-28
	5.6.8	Conveyor Decline	5-28
	5.6.9	Ventilation Intake Decline.....	5-29
	5.6.10	Extraction Level.....	5-29
	5.6.11	Undercut Level	5-31
	5.6.12	Ventilation Level	5-33
	5.6.13	Mine Infrastructure	5-33
	5.6.13.1	Ventilation	5-33
	5.6.13.2	Crushing	5-34
	5.6.13.3	Conveying.....	5-35
	5.6.13.4	Underground Water Management.....	5-35
	5.6.13.5	Maintenance Facilities.....	5-38
	5.6.13.6	Electrical.....	5-40
	5.6.13.7	Refuge Stations	5-40
	5.6.13.8	Storage and Materials Handling.....	5-40
	5.6.14	Mobile Equipment.....	5-42
5.7		Portal Facilities.....	5-43
	5.7.1	Offices, Workshop, and Stores	5-43
	5.7.2	Temporary Ore and Waste Rock Stockpiles	5-43
	5.7.1	Organics Stockpile.....	5-45
	5.7.2	Laydown Areas.....	5-45
	5.7.3	Propane Storage Tanks	5-45
	5.7.4	Water Handling Infrastructure.....	5-45
5.8		Ventilation Infrastructure	5-46
	5.8.1	Ventilation Exhaust Raise	5-46

5.8.2	Ventilation Raise Access Road	5-46
5.9	Access Corridor.....	5-46
5.9.1	Access Road	5-49
5.9.2	Access Tunnel	5-49
5.9.3	Conveyor	5-50
5.9.4	Dewatering Pipeline	5-50
5.9.1	Transmission Line	5-64
5.10	Mineral Processing	5-64
5.10.1	Summary	5-64
5.10.2	Primary Crushing.....	5-66
5.10.3	Conveyors.....	5-66
5.10.4	Primary Stockpile	5-66
5.10.5	Grinding	5-66
5.10.6	Flotation.....	5-66
5.10.7	Concentrate Dewatering.....	5-67
5.10.8	Concentrate Transport.....	5-67
5.10.9	Tailings Disposal	5-67
5.11	Waste Management.....	5-68
5.11.1	Waste Rock and Tailings	5-68
5.11.1.1	Overview	5-68
5.11.1.2	Foundations.....	5-79
5.11.1.3	Starter Dam Design Section.....	5-80
5.11.1.1	Starter Dam – Tie into Existing Ground	5-80
5.11.1.1	Intermediate Dam Design Section.....	5-80
5.11.1.1	Final East Dam Design Section	5-84
5.11.1.1	Design Analyses	5-84
5.11.1.1	Foundation Preparation.....	5-84
5.11.1.2	Till Core.....	5-87
5.11.1.3	Sand and Gravel Filter	5-87
5.11.1.4	Fine Transition Rock	5-87
5.11.1.5	General NAG Rock.....	5-87
5.11.1.6	PAG Rock Fill.....	5-87
5.11.1.7	Base Filter.....	5-87
5.11.1.8	Construction Quantity Estimates	5-88
5.11.1.9	Monitoring.....	5-88
5.11.1.10	Closure Spillway Design	5-91
5.11.2	Hazardous Waste	5-91

5.11.3	Non-hazardous Waste	5-92
5.11.4	Sewage	5-92
5.11.5	Air Emissions	5-92
5.12	Water Management	5-92
5.12.1	Underground Water Management	5-93
5.12.2	Non-contact Water Diversions	5-93
5.12.3	Contact Water Management	5-93
5.12.4	KUG TSF Water Balance.....	5-93
5.12.5	Mine Water Treatment.....	5-94
5.12.6	Reclaim Water and Process Water	5-95
5.12.7	Attichika Creek Discharge	5-95
5.13	Existing Ancillary Infrastructure	5-97
5.13.1	Camp.....	5-97
5.13.2	Power Supply.....	5-98
5.13.3	Administration/Surface Workshop/Mine Dry Complex	5-98
5.13.4	Airstrip.....	5-98
5.13.5	Potable Water System	5-98
5.13.6	Sewage Treatment Facility	5-99
5.13.7	Explosives and Cap Magazines.....	5-99
5.14	Avalanche Hazard.....	5-99
5.15	Mine Ore Production.....	5-100
5.16	Closure, Reclamation and Post-Closure	5-101
5.16.1	Closure and Reclamation	5-101
5.16.2	Post-Closure	5-101
	References.....	5-103
6.	Reclamation and Closure Plan	6-1
6.1	Introduction.....	6-1
6.1.1	Background	6-3
6.2	Regulatory Requirements	6-6
6.2.1	Provincial Requirements	6-6
6.2.1.1	Environmental Management Act	6-6
6.2.2	Federal Requirements	6-7
6.2.2.1	<i>Fisheries Act</i> and Metal Mining Effluent Regulations	6-7
6.3	Closure Plan Scope and Objectives	6-8
6.4	Soil Management	6-11
6.4.1	Soil Assessment	6-11
6.4.2	Soil Salvage	6-12

6.4.3	Soil Stockpiling	6-16
6.4.4	Soil Balance	6-17
6.5	Re-vegetation.....	6-18
6.5.1	Non-agronomic Seed Mixes.....	6-19
6.5.2	Agronomic Seed Mixes.....	6-19
6.5.3	Seed Application	6-19
6.5.4	Tree Species.....	6-20
6.5.5	Fertilizer.....	6-20
6.6	Reclamation and Closure Planning.....	6-21
6.6.1	Kemess South Reclamation and Closure	6-21
6.6.2	Kemess Underground Project Reclamation and Closure	6-21
6.6.2.1	Progressive Reclamation during Operations.....	6-21
6.6.2.2	Water Treatment.....	6-22
6.6.2.3	Temporary Closure	6-22
6.6.2.4	Permanent Mine Closure.....	6-23
6.6.3	Project Infrastructure Areas.....	6-25
6.6.3.1	Underground Workings and Decline Closure	6-26
6.6.3.2	Subsidence Zone	6-26
6.6.3.3	Portal Buildings and Laydown Areas.....	6-28
6.6.3.4	Access Corridor.....	6-29
6.6.3.5	Tailings Storage Facility.....	6-30
6.6.3.6	Borrow Areas	6-34
6.6.4	Monitoring	6-34
6.6.4.1	Reclamation Monitoring Program	6-35
6.6.4.2	Water Quality Monitoring.....	6-35
6.6.4.3	MMER Program.....	6-36
6.6.4.4	Geotechnical Monitoring Program.....	6-36
6.7	Closure and Reclamation Cost Estimate	6-37
6.7.1	Demolition and Decommissioning Costs.....	6-37
6.7.2	Reclamation Costs	6-38
6.7.3	Water Treatment Costs.....	6-38
6.7.4	Monitoring Costs.....	6-38
6.7.5	Indirect Costs	6-39
6.7.6	Total Cost.....	6-39
6.7.7	Reclamation and Closure Plan Updating.....	6-39
	References.....	6-41

Part B. Predictive Studies

7.	Predictive Studies.....	7-1
7.1	Air Quality.....	7-1
7.1.1	Rationale and Pathway.....	7-1
7.1.2	Regulatory and Policy Framework.....	7-2
7.1.3	Project Setting.....	7-4
7.1.3.1	Regional and Historical Setting.....	7-4
7.1.3.2	Current Conditions.....	7-4
7.1.4	Air Quality Model Boundaries.....	7-9
7.1.4.1	Spatial Boundaries.....	7-10
7.1.4.2	Temporal Boundaries.....	7-10
7.1.5	Predictive Study Methods for Air Quality.....	7-10
7.1.5.1	Air Quality Emission Inventory.....	7-10
7.1.5.2	Air Quality Dispersion Model.....	7-19
7.1.6	Predictive Study Results for Air Quality.....	7-23
7.1.6.1	Construction.....	7-23
7.1.6.2	Operations.....	7-27
7.1.7	Mitigation Measures for Air Quality.....	7-28
7.1.8	Predicted Changes on Air Quality.....	7-29
7.1.9	Summary for Predicted Changes on Air Quality.....	7-30
7.2.	Noise.....	7-31
7.2.1.	Rationale and Pathway.....	7-31
7.2.2.	Regulatory and Policy Framework.....	7-31
7.2.3.	Project Setting.....	7-34
7.2.3.1.	Regional and Historical Setting.....	7-34
7.2.3.2.	Current Conditions.....	7-34
7.2.4.	Noise Model Boundaries.....	7-35
7.2.4.1.	Spatial Boundaries.....	7-35
7.2.4.2.	Temporal Boundaries.....	7-35
7.2.5.	Predictive Study Methods for Noise.....	7-35
7.2.5.1.	Overview.....	7-35
7.2.5.2.	Modelling Methodology.....	7-37
7.2.5.3.	Key Sensitive Receptors.....	7-39
7.2.5.4.	Noise Study Scenarios.....	7-39
7.2.5.5.	Assessment Criteria.....	7-42
7.2.6.	Predictive Noise Study Results.....	7-46
7.2.6.1.	Continuous Noise Predictions.....	7-46

7.2.6.2.	Instantaneous Noise and Blast Overpressure Predictions.....	7-57
7.2.7.	Mitigation Measures for Noise.....	7-58
7.2.8.	Predicted Changes on Noise.....	7-60
7.2.9.	Summary for Predicted Changes on Noise	7-60
7.3	Geochemistry	7-61
7.3.1	Rationale and Pathway.....	7-61
7.3.2	Regulatory and Policy Framework.....	7-62
7.3.3	Predictive Study Boundaries	7-63
7.3.3.1	Spatial Boundaries.....	7-63
7.3.4	Project Setting	7-67
7.3.4.1	Regional and Historical Setting	7-68
7.3.4.2	Local Overview – KUG Mine Area	7-70
7.3.4.3	Local Overview – KUG TSF	7-85
7.3.5	KUG Mine Area Geochemical Water Quality Model.....	7-94
7.3.5.1	Conceptual Model for Source Term Development and Water Quality Predictions.....	7-95
7.3.5.2	KUG Mine Area Source Term Development.....	7-104
7.3.5.3	KUG Mine Area Water Quality Results	7-138
7.3.6	KUG TSF Geochemical Source Terms	7-144
7.3.6.1	KUG TSF Highwall.....	7-146
7.3.6.2	Tailings Seepage Term.....	7-156
7.3.6.3	Ore Processing Facility Term	7-158
7.3.7	Mitigation Measures for Metal Leaching / Acid Rock Drainage	7-158
7.3.7.1	Effectiveness of Mitigation Measures	7-159
	References.....	7-161

Part C. Effects Assessment

8.	Environmental Assessment Methodology.....	8-1
8.1	Approach and Regulatory Context	8-1
8.2	Scope of the Effects Assessment	8-3
8.2.1	Selecting Valued Components.....	8-3
8.2.1.1	Consultation Feedback on Proposed Valued Components.....	8-4
8.2.1.2	Valued Components Selected for Assessment	8-4
8.2.2	Defining Assessment Boundaries	8-8
8.2.2.1	Spatial Boundaries.....	8-9
8.2.2.2	Temporal Boundaries.....	8-9
8.2.2.3	Administrative and Technical Boundaries	8-10

8.3	Project Setting.....	8-10
8.3.1	Regional Overview and Historical Activities.....	8-10
8.3.2	Site Specific Baseline Studies	8-13
8.3.3	Data Sources.....	8-14
8.3.4	Methods.....	8-15
8.3.5	Current Conditions	8-15
8.4	Potential Project Effects and Mitigation	8-15
8.4.1	Potential Project Effects	8-15
8.4.1.1	Screening Potential Effects	8-15
8.4.2	Environmental Management Plans, Mitigation Measures, and Monitoring Programs	8-17
8.4.2.1	Key Mitigation Approaches	8-17
8.4.2.2	Environmental Management and Monitoring Plans.....	8-18
8.4.2.3	Effectiveness of Mitigation Measures.....	8-18
8.5	Residual Project Effects Assessment	8-19
8.5.1	Residual Project Effects Analyses	8-19
8.5.2	Characterizing Residual Effects	8-19

LIST OF PLATES

Plate 5.4-1. Aerial view of Gossan zone (viewed towards west).....	5-20
Plate 5.6-1. Example of LHD vehicle.	5-29
Plate 5.12-1. Aerial photograph of proposed KUG TSF discharge location in Attichika Creek	5-97
Plate 6.4-1. Dark Melanic Brunisol with extensive black Ah horizon (SMU 1a).....	6-15
Plate 6.4-2. Sandy gravelly red-coloured Humo-Ferric Podzol typical of SMU 2.	6-15
Plate 6.6-1. Approximate extent of subsidence zone showing potential post-closure contact water seepage zone (Weiland Terrain Sciences 2014).	6-26
Plate 12.6-1. Aerial view of the proposed Subsidence Zone (red outline) showing a number of existing roads.....	12-59
Plate 13.4-1. Altai Fescue-Arctic Willow Tundra (FW) ecosystem.....	13-20
Plate 13.4-2. Dryas-Altai fescue Tundra (AW) ecosystem.....	13-20
Plate 13.4-3. Rock Outcrops (RO) and heath ecosystems (foreground), which are a common at the higher elevations within the LSA.....	13-21
Plate 13.4-4. BlSw-Scrub birch-Crowberry (FC) ecosystem.	13-22
Plate 13.4-5. Krummholz community of Bl-Mountain heather (FH) within the SWBmks.	13-22
Plate 13.4-6. Bl-Feathermoss (FF) ecosystem.....	13-23
Plate 13.4-7. Willow Valerian Thicket (WV) ecosystem within the SWBmks.....	13-23
Plate 13.4-8. Talus Slopes within the LSA.....	13-24
Plate 13.4-9. Sw-Willow-Crowberry (SL) ecosystem, which grows on nutrient-poor sites.....	13-25

Plate 13.4-10. Bl-Scrub Birch-Crowberry (FC) occupying the steeper slopes within the study area.	13-26
Plate 13.4-11. Sw-Shrubby Cinquefoil-Horsetail (SH), which comprises predominantly spruce and horsetail on water receiving sites.	13-26
Plate 13.4-12. Willow-Sedge Fen (WF) wetland within the SWBmks.	13-30
Plate 13.4-13. Willow Riparian (WB) typically occurs as a narrow band along streams.	13-30
Plate 13.4-14. Willow-Scrub Birch-Altaï Fescue (WN) occurs on level valley floors subject to cold-air drainage.	13-31
Plate 13.4-15. Sedge Fen (SF) occurs on poorly drained seepage areas, on saturated organics on level areas.	13-32
Plate 13.4-16. Blue listed Wb09 black spruce–common horsetail–peat-mosses wetland along Thutade Lake.	13-33
Plate 13.4-17. Blue-listed gray-leaved draba (<i>Draba cinerea</i>).	13-34
Plate 13.4-18. Blue-listed upswept moonwort (<i>Botrychium crenulatum</i>) located in the top left portion of the photo.	13-34
Plate 13.4-19. <i>Draba</i> species (<i>Draba</i> sp.) from the Project.	13-35
Plate 14.4-1. Aerial photograph of proposed KUG TSF discharge location in Attichika Creek.	14-55

LIST OF APPENDICES

Appendix 3-A.	Notice of Invitation to Comment on Draft Valued Component Summary Document dated November 19, 2014
Appendix 3-B.	Project Brochures and 2015 Environmental Management Committee Newsletter
Appendix 3-C.	Project Posters and Maps
Appendix 3-D.	Summary of AuRico’s Communications with Aboriginal Groups, and VC Scoping Document and AIR Timelines
Appendix 3-E.	Aboriginal Groups Comment Tracking Table
Appendix 3-F.	Aboriginal Groups Community Meetings Comment Tracking Table
Appendix 3-G.	Aboriginal Consultation Plan
Appendix 3-H.	Interim Pre-Application Aboriginal Consultation Report
Appendix 3-I.	Summary of AuRico’s Communications with Government Agencies, and VC Scoping Document and AIR Timelines
Appendix 3-J.	Government Agencies Comment Tracking Table

Appendix 3-K.	Public Consultation Plan
Appendix 3-L.	Summary of AuRico's Communications with the Public
Appendix 3-M.	Public Comments Tracking Table
Appendix 3-N.	Public Consultation Report
Appendix 4-A.	Feasibility Study, Surface Infrastructure - Preliminary Design Report - Kemess Mine, British Columbia
Appendix 4-B.	Feasibility Study, Surface Infrastructure - Alternative Corridor Preliminary Design Report - Kemess Mine, British Columbia
Appendix 4-C.	Alternatives Assessment for Tailings and Waste Rock Disposal
Appendix 4-D.	Discharge Alternatives Assessment for Kemess Underground Project
Appendix 5-A.	Feasibility Study for the Kemess Underground Project, British Columbia Canada
Appendix 5-B.	Numerical Modelling for Assessing Caveability at Kemess under Block Caving Mining
Appendix 5-C.	Laboratory Testing Reports and Memorandums Regarding Water Treatment at the Kemess Underground Project
Appendix 5-D.	Geotechnical Characterisation of the Kemess Underground Project
Appendix 5-E.	Kemess Underground Feasibility Study Surface Infrastructure Design Report
Appendix 5-F.	Kemess Underground Groundwater Seepage Predictions
Appendix 6-A.	Feasibility Study, Mine Waste and Water Management - Design Report - Kemess Mine, British Columbia
Appendix 7-A.	Detailed Model Plan
Appendix 7-B.	Meteorology Baseline Report
Appendix 7-C.	CALPUFF Contour Plots
Appendix 7-D.	Environmental Noise and Blast Study Report
Appendix 7-E.	Geochemical Characterization Source Term Development and Water Quality Predictions for Underground Contact Waters
Appendix 7-F.	Tailings Facility – Highwall Source Term Development
Appendix 8-A.	Project Components and Activities List
Appendix 9-A.	Baseline Hydrogeology Report
Appendix 9-B.	Groundwater Model for Kemess Underground Mine

Appendix 9-C.	Groundwater Model for Tailings Storage Facility
Appendix 9-D.	Kemess Underground Mine Project – Groundwater Review Comments Requiring Response during EAO Screening Period
Appendix 10-A.	Baseline Hydrology Report
Appendix 10-B.	Winter Streamflow Measurements
Appendix 10-C.	Supporting Tables and Figures for the Surface Water Quantity Effects Assessment
Appendix 11-A.	Surface Water Quality Baseline Report
Appendix 11-B.	Limnology and Water Quality of Amazay (Duncan) Lake
Appendix 11-C.	2014 Thutade Lake Aquatics Baseline Report
Appendix 11-D.	Water Balance and Water Quality Modelling Report
Appendix 11-E.	2015 Aquatics Sampling Program
Appendix 12-A.	Terrain Stability Mapping and Assessment
Appendix 12-B.	Terrain and Soils Baseline Report
Appendix 13-A.	Ecosystems and Vegetation Baseline Report
Appendix 13-B.	2014 Thutade Lake Discharge Option Terrestrial Ecology and Rare Plant Baseline
Appendix 14-A.	Fish and Aquatic Habitat Baseline Report
Appendix 14-B.	2014 Thutade Lake Fish and Fish Habitat Baseline Report
Appendix 14-C.	Supplementary Fish and Aquatics Studies Conducted in 2015
Appendix 14-D.	2015 Fish and Fish Habitat Baseline Methods and Data Summary
Appendix 15-A.	Wildlife and Wildlife Habitat Baseline Report
Appendix 15-B.	Wildlife Habitat Suitability Modelling Report
Appendix 15-C.	Assessment of Potential Effects on Wildlife from Project-related Use of the Omineca Resources Access Road
Appendix 16-A.	Socio-economic Baseline Report
Appendix 16-B.	2015 Economic Model Report
Appendix 17-A.	Non-traditional Land Use Baseline Report
Appendix 18-A.	Baseline Human Health Risk Assessment
Appendix 18-B.	Project-related Human Health Risk Assessment

Appendix 19-A.	Tse Keh Nay/Kemess Underground Archaeological Overview Assessment
Appendix 19-B.	Heritage Inspection Permit Final Report: 2014-0275
Appendix 19-C.	Kemess Underground Project: Thutade Lake Discharge Waterline Archaeological Review and Preliminary Field Reconnaissance
Appendix 19-D.	Paleontology Desktop Review
Appendix 20-A.	Tse Keh Nay Traditional Knowledge and Land Use Study
