

Environmental Assessment of the Proposed Northeast British Columbia Project

Open House *and* Invitation to Comment

Plateau Pipe Line Ltd., a subsidiary of Pembina Pipeline Corporation (Proponent), is proposing to construct and operate a transmission pipeline approximately 160 kilometres in length and 12 inches (323.9 mm) in diameter to transport condensate and natural gas liquids from northwest of Wonowon, BC, to an existing terminal near Taylor, BC (the proposed Project).

The proposed Project is subject to review under British Columbia's *Environmental Assessment Act*.

The Proponent must obtain an environmental assessment certificate from the Environmental Assessment Office of British Columbia (EAO) before any work can be undertaken on the proposed Project. However, prior to submission of an application for an environmental assessment certificate by the Proponent, the EAO must first approve the proposed list of specific values to be studied (referred to as Valued Components) to be included in the proposed Project's Application Information Requirements, a document that summarizes the detailed information to be provided by the Proponent in its application.

Valued Components are aspects of the natural and human environment that have social, cultural, historical, ecological, scientific, economic or other importance to society that will be studied as part of the environmental assessment, and the areas within which the studies would occur.

EAO invites the public to comment on the proposed list of values to be studied. Information is available online at <http://www.eao.gov.bc.ca/pcp/index.html>.

EAO also invites the public to attend an **Open House** related to this comment period, to be held as follows:

at: **Pomeroy Hotel**
11308 Alaska Road, Fort St. John, BC
on: **Wednesday, October 21, 2015**
from: **4:30 p.m. to 8:00 p.m.**

There are 30 days for the submission of comments by the public in relation to the proposed list of values to be studied. The comment period will begin on October 6, 2015 and end on November 4, 2015.

NOTE: All submissions received by EAO during the comment period in relation to the proposed Project are considered public and will be posted to the EAO website.

All comments received during this comment period in relation to the proposed list of values to be studied will be considered.

The intention of seeking public comments at this stage of the process is to ensure that the specific values that might potentially be affected by the proposed Project are identified for consideration in the assessment process. After considering public comments, EAO will specify the Application Information Requirements, including the Valued Components, and issue them to the Proponent.

EAO accepts public comments through the following ways:

- **By Online Form at**
<http://www.eao.gov.bc.ca/pcp/index.html>
- **By Mail:**
Ricardo Toledo
Project Assessment Manager
Environmental Assessment Office
PO Box 9426 Stn Prov Govt
Victoria BC V8W 9V1
- **By Fax:**
Fax: 250-387-2208

An electronic copy of the Valued Components document will be available at www.eao.gov.bc.ca by the start of the public comment period. Copies of the Valued Components document will also be available for viewing at these locations:

During public comment period:

Fort St. John Public Library
10015 - 100 Avenue
Fort St. John, BC V1J 1Y7

During Open House on October 21, 2015:

Pomeroy Hotel
11308 Alaska Road
Fort St. John, BC V1J5T5

If you are unable to participate at this time, there will be an additional comment period during the Application Review stage when you will also be able to provide comments to EAO on the proposed Project.
