

# Amendment to the Oriented Strand Board Project Approval Certificate and the *Environmental Management Act* Permit for the Peace Valley OSB Project

---

## Open House *and* Invitation to Comment

---

Louisiana-Pacific OSB Limited Partnership (LP) is proposing to change the oriented strand board manufacturing process by adding methylene diphenyl diisocyanate(MDI) as a component of the adhesive used in the panel production. The Peace Valley OSB Project is located on the southeast side of Fort St. John.

Louisiana-Pacific OSB Limited Partnership has submitted its application for an amendment (Amendment Application) to the Project Approval Certificate. The Application also serves as a Technical Assessment Report for the Waste Discharge Authorization amendment application for air permit 17751.

There are 35 days for the submission of comments by the public in relation to the Amendment Application. The comment period will begin on September 29 and end on November 3. All comments received during this comment period in relation to the Amendment Application will be considered.

In order to provide information to the public about the Amendment Application, and to receive comments from the public, the Environmental Assessment Office (EAO) invites the public to attend an **Open House** to be held:

at: **Pomeroy Hotel and Conference Centre  
11308 Alaska Road, Fort St. John**  
on: **October 2, 2014**  
from: **4:00 to 8:00 p.m.**

Representatives from the EAO, the Environmental Protection Division, Ministry of Environment (MOE) and Louisiana-Pacific and its consultants will be in attendance to provide information about the proposed change to use MDI.

The intention of seeking public comments is to ensure that all potential effects that might result from adding MDI to the

oriented strand board production process are identified for consideration as part of the assessment process.

EAO accepts public comments through the following ways:
