

Authorship

This Application has been prepared by a multidisciplinary team of environmental and engineering professionals. Stantec is the primary author of this document with contributions from Khatda Environmental Services (Appendix K). Project management was provided by Sandra Webster (Ph.D., R.P.Bio.). Independent senior review was provided by Robert Federico (MPA), Chris Barlow (HBA and BA) and Mark Shrimpton (MA). Project management support was provided by Tara Schmidt (B.Sc., MA, RPP) and Gillian Mathews (M.Sc.). Mapping and figure production was provided by Ross Campbell (B.Sc. and BGIS). Production management support was provided by Tai Temple.

The primary authors of each effects assessment are listed below:
