Dear Mr. Carruthers:

Thank you for your letter of January 20, 2017 requesting withdrawal of the Enbridge Northern Gateway Pipeline Project (Project) from the Environmental Assessment (EA) process. EAO confirms that the Project has now been withdrawn from the EA.

If you later decide to pursue the Project again, you will be required to restart the process with the submission of a new Project Description and associated fees.

EAO will post this letter on its electronic Project Information Centre website at www.eao.gov.bc.ca.

Yours truly,

For Nathan Braun,
Executive Project Director, EAO
