Dear Ms. Mancinelli:

On November 21, 2017, the Environmental Assessment Office (EAO) received an Amendment Application pursuant to Section 19 of the *Environmental Assessment Act* from the Upper Lillooet River Power Limited Partnership, the Boulder Creek Power Limited Partnership and the North Creek Hydro Power Limited Partnership (the Partnerships) to amend the Environmental Assessment Certificate #E13-01 (EAC) issued for the Upper Lillooet Hydropower Project. I am writing to let you know that on December 11, 2017, the EAO accepted the Amendment Application for review.

The EAO will consider your request to amend the EAC and engage in an assessment of the Amendment Application with interested provincial and federal agencies. Moving forward, Aboriginal groups and key agencies will be invited to participate in a review and assessment of the Amendment Application. At the end of the process, the Executive Director will make a decision in regards to the amendment.

If you have any questions or concerns regarding the process, please contact me at 250 387-2463 or david.angus@gov.bc.ca or contact Heather Noble, Project Assessment Manager at 250 387-6758 or by email at Heather.Noble@gov.bc.ca.
