Vancouver, B.C. V7X 1V5

Dear Matthew Barnette,

**RE: Warning for Non-Compliance with Condition 40 of Environmental Assessment Certificate # E14-02**

On July 15, 2026, Senior Compliance and Enforcement Officer Tony Carroll conducted a field and administrative inspection (Inspection) of the Site C Clean Energy (Project) against the requirements of Schedule B - Table of Conditions. Based on review of information obtained during the Inspection, it was determined that the Certificate Holder, BC Hydro and Power Authority (the Holder) is not compliant with Condition 40 of Schedule B - Table of Conditions.

Condition 40 requires the Holder to mitigate changes in recreational opportunities and loss of existing recreational areas resulting from the Project.

The inspection findings are documented in Inspection Record 20260045\_IR001.

The Holder is hereby **WARNED** that the Project is not compliant with Condition 40 of Schedule B - Table of Conditions. The maximum penalty for failure to comply with an Environmental Assessment Certificate is \$1,000,000 and, on each subsequent conviction, a fine of not more than \$2,000,000.

Environmental Assessment Compliance & Enforcement will continue to monitor this issue and may follow-up with further inspections as required. Future or continuing non-compliance may result in additional enforcement action as warranted.
