Calgary, AB T2P 2H5

Dear Ms. Chaulk,

RE: Warning for Non-Compliance with Conditions 3 and 12 of Environmental Assessment Certificate # E15-01

Between February 6 and March 4, 2026, Compliance & Enforcement Officer Alex McLean conducted a field and administrative inspection (Inspection) of the LNG Canada Export Terminal (Project) against the requirements of Schedule B - Table of Conditions. Based on review of information obtained during the Inspection, it was determined that the Certificate Holder, LNG Canada Development Incorporated (the Holder) is not compliant with Conditions 3 and 12 of Schedule B - Table of Conditions.

Condition 3 requires the Holder to maintain a log of flaring and venting events that contains the required information.

Condition 12 requires the Holder to assess bird vulnerability when scheduling planned flaring events. It also requires the Holder to maintain the installed bat boxes for the life of the Facility unless otherwise agreed with relevant regulatory agencies.

The inspection findings are documented in Inspection Record 20260006_IR001.

The Holder is hereby **WARNED** that the Project is not compliant with Conditions 3 and 12 of Schedule B - Table of Conditions. The maximum penalty for failure to comply with an Environmental Assessment Certificate is \$1,000,000 and, on each subsequent conviction, a fine of not more than \$2,000,000.

...2

The Environmental Assessment Compliance and Environmental Enforcement Branch will continue to monitor these issues and may follow-up with further inspections as required. Future or continuing non-compliance may result in additional enforcement action as warranted.

Please contact me at 250-387-0131 or via email at eao.compliance@gov.bc.ca if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Alex McLean", with a horizontal line extending from the end of the signature.

Alex McLean
